

Why Choose H3P and H3G DeskPhones

Our Advantages

User-Oriented

Audio

Quality

Green

Service

**Entry-level deskphones
with robust performance**

**H3P, H3G
SIP deskphones**

- High quality gone through century-old tests; high-end design originated from Europe; localized innovative research and development; customer-oriented one-stop service.
- Entry-level SIP deskphones: large screen and POE Class 1 models.
 - Larger text fonts and more lines to present more contents, e.g. querying contacts and call logs, or viewing function menus
 - PoE class 1 saves energy, the overall operation and maintenance cost
- Optimal components improve the overall performance of the deskphone, for example, it can boot in seconds.
- Compatible with multiple platforms, support Easy Deployment Server (EDS) and Easy Provisioning Server (EPS) deployment platforms, and hence can achieve easy massive deployment.

Note: H3P: 100M Ethernet ports, black keys
H3G: 1000M Ethernet ports, black and silver gray keys

Aesthetic Design: Contracted

- 132 x 64 black and white backlit screen, with concise text display
- Blue LED indicators for prompt function and aesthetics
- Three-color appearance of black, white, and gray: black/silver gray keys, white numbers/symbols

Call Performance: Clear, Stable

- Our broadband audio technology guarantees clear conversations
- Selected chips and electronic components improve the overall performance, and guarantee robust performance even in harsh environments
- Five-party local calls
- 1,000 call logs and local contacts
- Standard RJ9 headset connection
- 3 SIP accounts

Handset, Keys: Ergonomic Design

- The radian of the handle fits the palm so that the user will feel less fatigued after holding the phone for a long time
- On-hook through Hall sensor to prevent accidental on-hook, reduce noise, and extend the service life
- The handset made of special materials can reduce slippery with sweat
- The concave radian of digital keys properly fit finger pulp

Deployment: Easy, Effortless

- EPS and EDS help massive deployment
- Widely compatible with [multiple third-party platforms](#)

Optional Headset

- AH 11
- AH 11GA
- AH 12G
- AH 12GA
